EXPERIENCE

Creative Engineer

North Kingdom, Los Angeles

2019 - present

Utilizing the latest web technologies to create innovative, interactive digital experiences. Constantly researching and implementing new technologies, problem-solving and striving to provide a seamless user experience.

General Assembly, Los Angeles

Front End Web Development Instructor

September 2018 - present

Working with students who have little to no previous knowledge of HTML, CSS or Javascript to teach them the fundamentals of front end web development over the course of 10 weeks.

Web Development & Design, Los Angeles

Freelance

May 2013 - present

Working with a variety of clients across the creative industries to design and develop brand websites, e-commerce and digital publishing platforms. In addition to technical work, I also did project management and client relations.

Bruce High Quality Foundation University

New York, NY

Digital Strategist

December 2013 - 2015

Designed and managed development of digital presence for this nonprofit art school. Also developed a web scraping program to clone the Greek and Roman database of the Metropolitan Museum of Art
